Reference letter

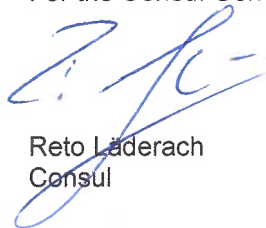

The Consulate General of Switzerland in Hong Kong herewith confirms having used the services of Eco Glass Hong Kong in May 2019. Eco Glass was mandated to install 3M safety film as well as window and door stays in one of our residences.

All of our experience has been very positive, and Eco Glass has provided a very successful completion of the required task. The work finished within the set timeframe and agreements had been kept at all time.

Should the occasion arise, the Consulate General of Switzerland would revert without hesitation to Eco Glass for another assignment and we can recommend Eco Glass in the domain of the above mentioned security installations.

Sincerely,

For the Consul General of Switzerland

Reto Läderach
Consul
