Eco Glass Asia
2nd Floor, 19 Tsing Fung Street,
Causeway Bay, Hong Kong

Dear Sir/Madam,

We are writing to recommend the services of Eco Glass. From the initial consultation to installation, we found the process to be seamless and highly efficient.

Our offices face west and capture a lot of afternoon sunlight. After researching window films, we chose Eco Glass for their 10 year warranty and professionalism. 17 window panes in 3 offices were installed with the Prestige Series in less than 6 hours; it was a highly efficient process with no disturbance to our daily operations. At the end of day after installation, one office member walked by and asked whether the films were installed as there was no color change, no odor, no mess; to his surprise, everything was completed and even upon closer inspection he remarked that he could not see the film. We made the right decision to go with Eco Glass as we have felt a reduction of heat and sun glare especially during these summer months.

We are very happy with the service and product and would highly recommend Eco Glass and their services.

Sincerely,

John Ho
Managing Director
